# WHY INSURE YOUR LIFE?

## As a life insurer, we understand that despite best efforts, life doesn't always go to plan.

If something happened to you, your loss could affect those you love both emotionally and financially. Would your family cope with paying the monthly bills or making mortgage repayments without your salary? Would your business survive without your expertise?

If you have a family, business, or other financial commitments, the impact of an unexpected death can be large. Having certainty of cover can help your loved ones to survive financially should the worst happen, making all the difference at a time when support can be at its most needed.

## What is Life Cover?

Life Cover is designed to pay a lump sum if you die; protecting the lifestyle and future of those you care about.

## What does it offer me?

You have the choice of Personal or Business Life Cover to suit your needs.

- > **Terminal illness:** Provides an early payment of your Life Cover benefit if you are diagnosed as being terminally ill and likely to die within 12 months. This means you can spend your remaining time with your family and loved ones without worrying about your finances.
- > **Bereavement Support:** Pays a lump sum of up to \$15,000\* to help with funeral expenses (or a monthly benefit if you have the Family Protection Benefit) upon Sovereign receiving notification of death.
- > **Advanced partial payment for specified terminal conditions:** If you suffer one of the specified terminal conditions, you can choose to have 30% of your sum insured up to \$250,000 paid in advance. Some terminal conditions, such as motor neuron disease, offer longer survival rates but can have a significant impact on your lifestyle. This benefit enables you to make any immediate changes to your lifestyle as required.
- > **Financial Advice Benefit:** With the Financial Advice Benefit, the policy owner is able to get financial advice from a Sovereign-approved financial adviser at the time of making a claim, and Sovereign will reimburse the policy owner for fees up to \$2,500 (incl. GST). This is a one-off payment across all Sovereign policies.
- > **Cover increases:** In certain situations, for example, when you get married, have a baby, purchase a house or if your financial interests in a business increase, you can apply to increase your sum assured without having to provide further medical information.
- > **Children's Funeral Benefit:** Can pay a benefit of up to \$2,000\* when a child of the life assured dies as a result of an accidental injury, between the ages of three and ten years.
- > **Worldwide Cover:** Provides cover anywhere in the world, 24 hours a day.
- > **Optional Family Protection Benefit:** Provides for a monthly amount, rather than a lump sum, to be paid to your family after your death.
- > **Eligible entry ages:** 10 years upwards (individual consideration beyond age 70).
- > **Term of cover:** Renewable each year with no expiry age.

\*This payment will be deducted from the life assured's Life Cover Benefit. The premium will reduce accordingly.

# WHAT ARE YOUR PREMIUM OPTIONS?

You can choose between a number of premium options, to suit your life stage and circumstances.

## Premium options

- > **Rate for age:** When your premium increases each year in line with your age.
- > **Level for 10 years:** When your premium remains constant for 10 years and then reverts to Rate for Age.\*
- > **Level to age 65:** When your premium remains constant until you are 65 years old and then reverts to Rate for Age.\*
- > **Level to age 80:** When your premium remains constant until you are 80 years old and then reverts to Rate for Age.\*

**INFLATION-PROOFING:** If you choose to have your policy linked to the Consumer Price Index (CPI), every year your sum assured will increase in line with inflation; as your sum assured increases, your premiums will increase too.

If your cover doesn't change, your Level Premiums will remain the same for the period you have selected. Even if there is a change in the underlying rates, your premium will remain the same until the end of the selected period.\*

Where you have chosen to increase the sum assured in line with the CPI, the underlying premium rates will remain the same. Any premium increase will relate only to the increase in the sum assured.

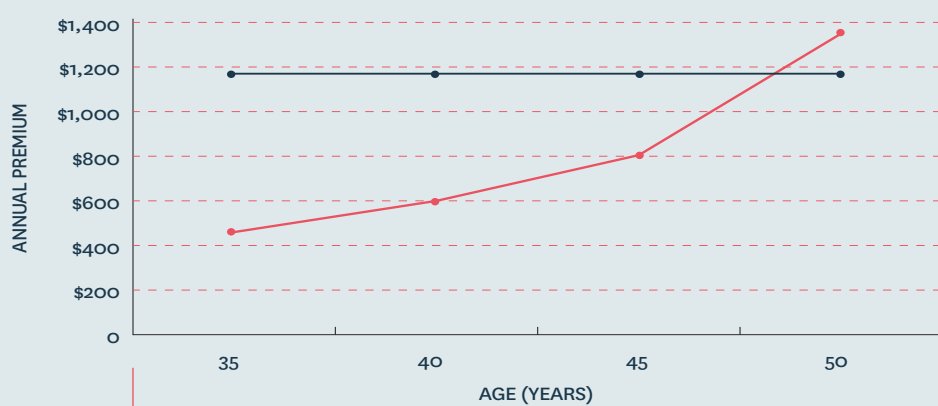

Depending on your age, Rate for Age premiums are lower cost than level premiums when you first take out cover. This can help by freeing up more of your money to put towards things like debt or other insurance needs.

You may want to reassess your insurance and premium structure needs later on, to make sure you have the most appropriate solution for your needs at the time.

\* This means that Sovereign cannot review these applicable premium rates during the guarantee period, unless you voluntarily make alterations to your policy or benefits, or a change in the law or taxation occurs.

LIFE COVER FIGURES are based on a 35-year-old male, non-smoker, insured for \$500,000.

## Rate for Age vs. Level Premiums – How do they compare?

● Level to age 80 ● Rate for Age

The figures on the left are for comparative purposes only. At the end of the selected Level period, the premium type will revert to Rate for Age.

When is your greatest need for cover, to protect debt, such as a mortgage?
